

# Tactical Medical Training Course

Our Tactical Medical Course is structured to prepare you to provide Immediate Action Medical care in a hostile environment. Whether it be yourself in need of medical attention or someone else, you must be ready to form an Immediate Action Plan and perform Rapid Trauma Assessment & Treatment. Your life or theirs will be saved by the Medical Treatment you perform to stabilize until Medics arrive. Although this course is structured around a Hot zone treating gunshot & knife wounds, the skills learned in this course are applicable in any life threatening medical emergency.

## Sampling of topics covered in this course:

- *IFAK set up*
- *Security in a threat situation*
- *Formulating an Immediate Action plan*
- *Trauma assessment*
- *Treatment of major hemorrhages, sucking chest wounds, blocked airways etc.*
- *Casualty evacuation*

## Previous experience required:

*None.*

## Items needed:

- *Knee & Elbow pads*
- *Loose work clothing*
- *Belt*
- *Pen and pad*
- *Glock 17 holster (loaners available)*
